PROFILE

Full stack web developer with experience as a purchasing manager in the retail lumber industry. Optimizing and streamlining operations to achieve high levels of efficiency and effective resource allocation share many parallels to software design and implementation. I'm excited to utilize these skills in my career as a developer.

SKILLS

Languages: Javascript, HTML5/CSS3, SQL, Java, C++

Frameworks: React JS, Node JS, Express, Ruby on Rails, JQuery, Bootstrap

Testing: Storybook, Cypress, Mocha/Chai, Jest, Capybara, Rspec

Tools: Netify, CircleCi, Heroku, Material UI

PROJECTS

SPOTIFY CLONE | Jan 2021

A spotify clone built using React JS and the Spotify API. Where users can play, shuffle, repeat, skip and prev music selections.

Front-end: React JS, Material UI, CSS3

ADTIME SCHEDULING | Oct 2020 - Nov 2020

A scheduler/calendar that allows users to create, edit, delete and transfer shifts. Allowing a seamless update of employees' work schedule with text reminders through Twilio and Slack notifications.

Front-end: React JS, React Router, Material UI, SASS, CSS3

Back-end: Node JS, Express, Postgres

INTERVIEW SCHEDULER | Oct 2020

A scheduler that the user can create, edit and delete interview appointments.

Front-end: React JS, HTML5, CSS3

Back-end: Node JS, Express, Postgres

Testing: Jest, Storybook, Cypress

STORY CREATOR | Sept 2020

A web app that allows users to create, read and contribute unique stories. Also allows the user to upvote preferred stories.

Front-end: HTML5, SASS, EJS

Back-end: Node JS, Express, Postgres, JQuery

EXPERIENCE

Sen Western Wholesale Lumber Ltd., Vancouver, B.C. — *Purchaser*

October 2010 - July 2020

- Managed inventory of over 1000 SKUs, planning for just in time inventory to achieve cost and space efficiency.
- Sourced special order products as requested to meet and exceed customer expectations.
- Organized and supervised a team for year-end inventory to ensure an accurate account of all SKUs, reporting inconsistencies for investigation.
- Served as a company's main point of contact for resolution for all IT related issues.
- Maintained involvement in various aspects of the business including shipping, receiving, inside sales, forklift operations and warehousing to ensure optimal operations through peak times.
